

## SHOP AREA SAFETY RULES

- **REMOVE CHUCK KEY AFTER TIGHTENING CHUCK**  
*All Fastening tools must be removed from machine after use, serious injury can result otherwise.*
- **SAFETY GOGGLES MUST BE WORN AT ALL TIMES**  
*Flying debris or machine failure can result at any time, caution must always be observed.*
- **KNOW THE MACHINE YOU ARE OPERATING**  
*These are industrial machinery and must be respected therefore before operating a machine familiarize yourself with all machine controls, especially all safety features (emergency stop).*
- **IF UNSURE OF A MACHINE OR OPERATION, ASK THE MACHINIST**  
*The machinist is present to help you do the work safely and correctly. If you are not absolutely sure of an operation, ask, they enjoy teaching and helping.*
- **STAY ALERT AND CAUTIOUS**  
*The machines are powerful and can cause severe injury.*
- **NO HORSEPLAY OR GAMES TO BE ENGAGED IN THE SHOP**  
*It is not a playground, and dangers are real.*
- **SECURE LOOSE HAIR, LOOSE FITTING CLOTHING, JEWELRY, AND ANY OTHER ITEMS**  
*The items may get caught within the machines, and will overpower a person causing physical injuries. Therefore all long sleeve clothing must as well be rolled up above the elbow.*
- **SECURE ALL WORK MATERIAL BEFORE OPERATING MACHINERY**  
*Certain machines require specific fastening of material such as Surface Grinders require the magnet to be engaged, etc. Be responsible and ensure that the work material is fastened, otherwise you have created a flying weapon.*
- **PLEASE ABIDE BY THESE RULES, SO THAT GEORGE WOHLRAB WILL NOT BE REQUIRED TO EXCUSE YOU FROM THE MACHINE SHOP**

**Use Common Sense,  
Do Not Endanger Your Life Or That Of Any One Other Person In The Shop!**

THANK YOU,  
George Wohlrab
